

MAKE A HANGING BIRD FEEDER

Join us in making your very own hanging bird feeder for your garden or local outside area..

30 minutes

TASK INSTRUCTIONS

EQUIPMENT

- A 500ml pop bottle
- 2 Sticks or Wooden Spoons
- String
- A screw driver or sharp object
- Scissors
- Bird Seed

1. Gather your equipment
2. Drill a hole in the lid of the bottle,
3. Thread the string through the hole making a loop, tying a knot in the underside of the bottle.
4. In the side of the bottle cut or drill two holes across from each other, slightly bigger than stick or spoon handle at one end.
5. Lower down the bottle repeat this action. Take a look at the attached picture for help.
6. Thread your sticks or spoons through the bottle leaving equal amounts sticking out of each end.
7. Fill the bottle with bird seed, through the opening at the top.
8. Screw back on the lid and hang up outside using the string.

This activity goes towards badge requirements for;

SCOUTS

EXPLORERS
